

PAPER PRESENTATION COMPETITION

Topic: Application of scientific laws in our daily life / Chandrayaan-2

Date: 10-20 Nov 2020

Category: IX & X

Description: The modern age is an age of science. It has seen many inventions and discoveries. They have made our life easy and comfortable. The Invention of wheel made our transport easy. The wonder of modern science is the discovery of Electricity. It has changed our life, society, and culture. Now our daily life is unimaginable without science. The modern science made the whole world into one big family. From the above examples, we can sense the broadness and importance of science in everyday life. By keeping all these things in our mind. The science department of SUDHARSANAM VIDYAASHRAM conducted this Paper presentation competition to know the importance of science and to improve observational skills, a scientific mindset, and analytical thinking among our students. We encourage our students to boost their astronaut dreams. To Improve their knowledge with respect to current affairs and the growth of the country a child should be aware of what is going on in the world. This competition identify the bright minds with a scientific aptitude among the student community.
